

## Delivery Checklist

Before you attempt to install or light your oven, please check all parts of the oven against the following checklist. A signed delivery note without notations of missing, damaged or incorrect item(s) represents your acceptance of the complete order is in perfect condition.

### Precast Fuego Oven (x1)

Arrives in your chosen finish and size.  
Please check the outside and inside of the oven.

### Thermometer Dial 30cm (x1)

The dial ranges between 0-500°C and the needle is positioned above 0°C.

### Internal Steel Flue $\varnothing$ 125mm (x1)

Please check there is no obstruction inside the flue and that the flue fully opens by turning the handle to a 12 o'clock vertical position and that it closes by turning the handle to a 3 o'clock horizontal position.

### Cast Iron Door and Handle (x1)

Please check the door hinges, door handle and air vent are opening and closing correctly. If you have purchased a window door, please check the glass panel is included inside the oven ready to slide into the door.

## OPERATING MANUAL (x1)

Please read this manual before attempting to cure or light your oven.
