

## VITCAS® CHIMNEY AND FLUE CLEANER

TDS5-3

Vitcas Chimney Cleaner removes tar and creosote accumulations on the inside of any type of chimney or flue including stainless steel flexible flue liners. This improves the efficiency of the chimney or flue and reduces the risk of chimney fires.

### Application:

For use on any solid fuel open fire, free standing stove or cassette stove.

### Application Instructions:

When the fire is low, empty the ash pan and then sprinkle 2 scoops of cleaner onto the fire. If the fire is more than 20kW or the chimney is very large then use 4 scoops. Allow one hour to burn through. The use of chimney cleaner does not avoid the need to sweep the chimney on a regular basis.

Technical Data	
Consistency	Dry Powder
Colour	Light Brown
Dosage	2 – 4 scoops twice per week
Active Component	Alkaline Phosphate

Storage: Keep dry and store in a cool dry place away from children and pets. Shelf life is 24 months from the date of manufacture in unopened, original packaging, stored at temperatures between 0°C and 25°C in a dry place protected from freezing.
